## SIZING INSTRUCTIONS

| Model* $^{*}$ | Motor Kit <br> Optional | Approximate Square Footage Cooled** |  |  |
| :--- | :---: | :---: | :---: | :---: |
| ( | A | B |  |  |
| D38 <br> S38 | RF030142 | 800 | 1000 | 1200 |
| D48 <br> S48 | RF030135 | 1200 | 1400 | 1600 |
| D68 <br> S68 | RF030139 | 1600 | 1800 | 2000 |

D models are down discharge $S$ models are side discharge

1. Select the area (A, B, or C) where you live from map.
2. Choose the approximate square footage you would like to cool from the chart.
3. Buy the model that best matches your square footage.

## ASPEN RESIDENTIAL COOLER

## THE SYMPHONY ASPEN VALUE LINE IS THE ORIGINAL DRAWN PAN DESIGN WITH ROUNDED CORNERS THAT HAS BECOME SO POPULAR.

The industry standard value line has thick Aspen media for enhanced performance. The cabinet has the Symphony smooth rounded corners so that dirt and minerals cannot build up to accelerate wear. All Aspen residential models come with a poly-bond coating, Plastisol ${ }^{\text {TM }}$ sealant and a superior pump.

## SYMPHONY OFFERS YOU THE BEST COOLING CHOICE!

## SYMPHONY PUMPS

Our pumps have been engineered for high performance and long life. The Symphony pump features a bleed off port to minimize calcium deposits. The motor has been specifically engineered for a mineral rich and continuous use environment. A standard one year warranty comes with each pump.

## ONLY SYMPHONY OFFERS THE FINEST POLYESTER-EPOXY POWDER COAT FINISHES AVAILABLE TODAY.

The Symphony attractive appliance type finish assures years of reliable service. This multi-layer bonded treatment protects your cooler against corrosion and weather and is a proven product addition. Protects and extends the appearance of your cooler. Starting with heavy gauge cold-rolled steel we add layer upon layer that results in a product so superior that we back it with a 10 year warranty.

## PLASTISOLTM

Plastisol${ }^{T M}$ is an elastomeric coating designed to flex and seal for a water tight product. Plastisol along with the Poly-bond finish allows Symphony to accomplish a water tight bottom pan without having to resort to a full plastic liner which can split and crack and allows for premature rusting. Symphony continues to lead the industry in product innovation and design features.
